*Helping Customers Improve Their Processes
and Increase Productivity*

*Your Process Equipment, Bulk Solids Handling,
and Engineering Resource for...*

- Powder and Liquids Processing
- Food/Pharmaceutical Sanitary Processing
- Instruments and Controls
- Air Pollution Control
- Packaging

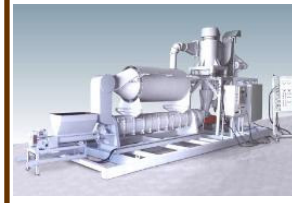

Phone (908) 688-8560 Fax: (908) 688-6704 Email: gary@i-2bpst.com or tony@i-2bpst.com www.i-2bpst.com

If You Need...

- Solids and Liquids Mixing
 - Ergonomic Material Handling
 - Dust and Air Pollution Control
 - Conveying
 - Drying, Coating and Granulating
 - Feeding and Weighing
 - Magnetic Separation and Metal Detection
 - Size Reduction or Agglomeration
 - Screening and Sifting
 - Packaging
 - Heat Exchangers, Vessels and Tanks
- ...we can help!*

Built for today...
...to last for tomorrow

- Waste Heat Boilers

Energy Recovery Surveys

- Complete Design + Installation = Turn-key

www.custom-powder.com

- Bin Benefits:
- Close Containment
- Ease of Cleaning
- Off-line Storage and Testing
- Quick Batch Changeover
- Repeatable, homogenous blending
- Modular design for ease of transport and versatility

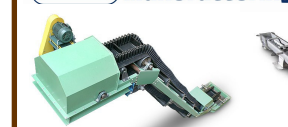

Drum Massager:

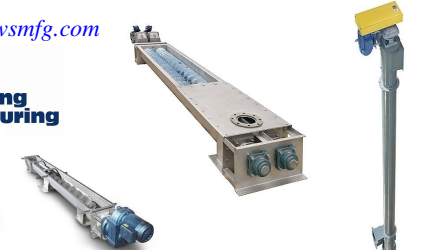

- The Drum Massager offers a unique solution to remove hardened product from drums or boxes.
- The patented system has multiple sets of massager arms that compress the sides of containers to breakup product for easy discharging.
- A rotating lift platform raises and turns the container to allow for multiple compression on the container sidewall.

Benefits of Bin Blending:

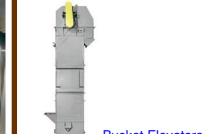

- Reduces Blend Times
- No Between Batch Cleanup
- Total Product Containment
- Immediate Product Changeover
- Zero Blender Cleaning
- Eliminate Airborne and Cross-Contamination
- Eliminate Product Segregation
- Eliminate Spillage Risks

Belt Conveyors

Single Shaft, Twin Shaft and Vertical Screws

Bucket Elevators

KWS's products include: screw conveyors, shaftless screw conveyors, vertical screw conveyors, screw feeders, live bottoms, bucket elevators, slide gates, chutes, mixers, blenders, drag conveyors, belt conveyors, hollow-flight processors, and ASME pressure vessels.
